

## **Responsible Tourism Statement**

Here at Bungy New Zealand challenge drives our professional organization. Our unique culture will foster and celebrate innovation, excellence and our customer satisfaction.

We deliver adventure and personal challenge, with a sense of fun, using sustainable business practice to minimise our impact on the environment.

## **Responsible Tourism Goals**

We seek to:

- Minimise waste
- Promote recycling
- Use sustainable products
- Reduce energy consumption

## **Responsible Tourism Actions**

### **Energy Efficiency**

We conduct regular energy audits to minimise energy use.

### **Waste Management**

We reduce the amount of waste going to landfill by encouraging crew and visitors to separate waste for recycling.

### **Water Conservation**

We seek to conserve water where ever possible.

### **Wise Purchasing**

Where financially viable, we give preference to local suppliers and those who share our commitment to sustainable practices.

### **Conservation**

We work closely with Department of Conservation and NZ Historic Places Trust to ensure our business assists in the conservation of the historic heritage sites we share.

### **Community**

We participate in our local community by regularly supporting events and schools.
