## FAQ'S

### WHY DO PEOPLE BUNGY?

This is different for everyone as Bungy is such a personal experience. But in general people Bungy because they want to push themselves out of their comfort zone.

### WHAT SHOULD I WEAR?

Wear comfortable clothing, most of our sites also require secure lace up shoes such as sneakers so it pays to double check the conditions for your activity. Also as the weather can be changeable ensure that you bring a couple of warm layers.

### CAN I JUMP IF I HAVE A MEDICAL CONDITION?

Please inform our Bungy Crew if you have any of the following conditions: High & Low Blood Pressure, Heart Condition, Epilepsy, Pregnancy, Fragile Skin, Neurological Disorder, Bone Disorder, Dislocations, Diabetes, Asthma, Prosthetics, Cosmetic Implants, Panic/Anxiety Attack, Recent Sprains, High Myopia & Muscular Injuries. These conditions do not necessarily exclude a person from Bungy/Catapult/Swings/Bridge Climb/Zipride/SkyWalk/SkyJump. It is important for all customers to declare any of the above medical conditions when they check in. For any other pre-existing medical condition please talk to our expert crew and they will make an assessment on a case by case basis. Please bring any relevant written doctors' advice with you.

### WHAT IF THE SAFETY HARNESS DOESN'T FIT PROPERLY?

On some rare occasions we do have some customers in the lower weight ranges who might meet the minimum weight restrictions but yet do not fit the safety harness properly. Unfortunately in these cases you will not be able to complete the activity. We will arrange for a full refund in these circumstances similar to a medical condition preventing participation.

### CAN I BRING AND USE MY OWN CAMERA?

Rules around personal camera use differ for each site, but as a general rule, yes you can bring and use your own camera to capture all of your pre-activity nerves while getting ready and checking in, after that it depends on what site you are at and what activity you are doing. For all Bungy options, Go Pros and action cams are permitted but must be secured to the jumper and must be approved by a Jump Master. For all Auckland activities (excluding Bungy) unfortunately due to health and safety regulations no loose items including cameras are permitted.

### WHAT ARE THE RESTRICTIONS FOR TANDEM JUMPS?

The maximum combined weight at the Kawarau is 235kg (518lbs). In Auckland it is 150kg (330lbs) and in Taupō it is 180kg (397lbs). There cannot be more than a 30kg (66lbs) difference between the weight of the two Jumpers. Please note that other considerations will be taken into account on the day such as height difference and the weather, so we cannot guarantee until the day of your jump that you will be able to do it tandem. However, we will work with you and do our utmost to cater to all requests.

### HOW CAN I DO A WATER TOUCH?

At check-in let our crew know that you would like to do a water touch. A water touch is not guaranteed as is subject to weather conditions. Also depending on how you jump you could miss the water or you could get completely dunked. This is just part of the risk and part of the thrill!

# THE BUNGY STORY

I met AJ back in the 80's when we were skiing in Wanaka, he helped me with my speed skiing competitions and I helped him develop a safe, predictable Bungy system.

Bungy has always been a life-changing experience. It began with a small group of people from Pentecost Island in Vanuatu. They fearlessly threw themselves from high towers made from trees for centuries, with merely a few vines around their feet.

They called it 'land-diving', and legend says that it started when a mistreated wife threw herself from a tall tree, saving herself with the vines while the husband fell to his death. The event was reconstructed annually as a fertility ritual based around the yam harvest, with only women jumping. Eventually the Christian missionaries, offended by upend naked women, forced a change to men doing the jumping instead. The tradition continues to this day.

This ritual sparked the Oxford University Dangerous Sports Club to try a few experimental jumps back in the 1980's. AJ saw a video of this group in action so then we teamed up and along with help from some Auckland University Scientists we developed and tested our Bungy cords.

We then travelled around New Zealand jumping off every bridge possible and realised the dramatic effect that our friends all experienced was something special and to be treated with care and respect.

Then while travelling to France to Speed Ski we found more bridges that we just had to jump from. The excitement of our French friends about jumping, confirmed that we should try to offer Bungy to all people to experience.

However, we knew this would take some convincing and a very public show of faith in our brand new Bungy cord. So in 1987 AJ snuck up the Eiffel Tower at night, then first thing in the morning he jumped from the iconic structure. He was immediately arrested, but was released five minutes later. The jump made International headlines and the Bungy phenomenon had begun!

In 1988 we opened the World's first Commercial Bungy Operation at the Kawarau Bridge. In the beginning we were only given a 30-Day License to operate.

Many assumed that Bungy Jumping was a 'passing fad' with limited appeal and commercial viability. On that first day, we had twenty-eight people each pay \$75 to leap off the 43-metre bridge.

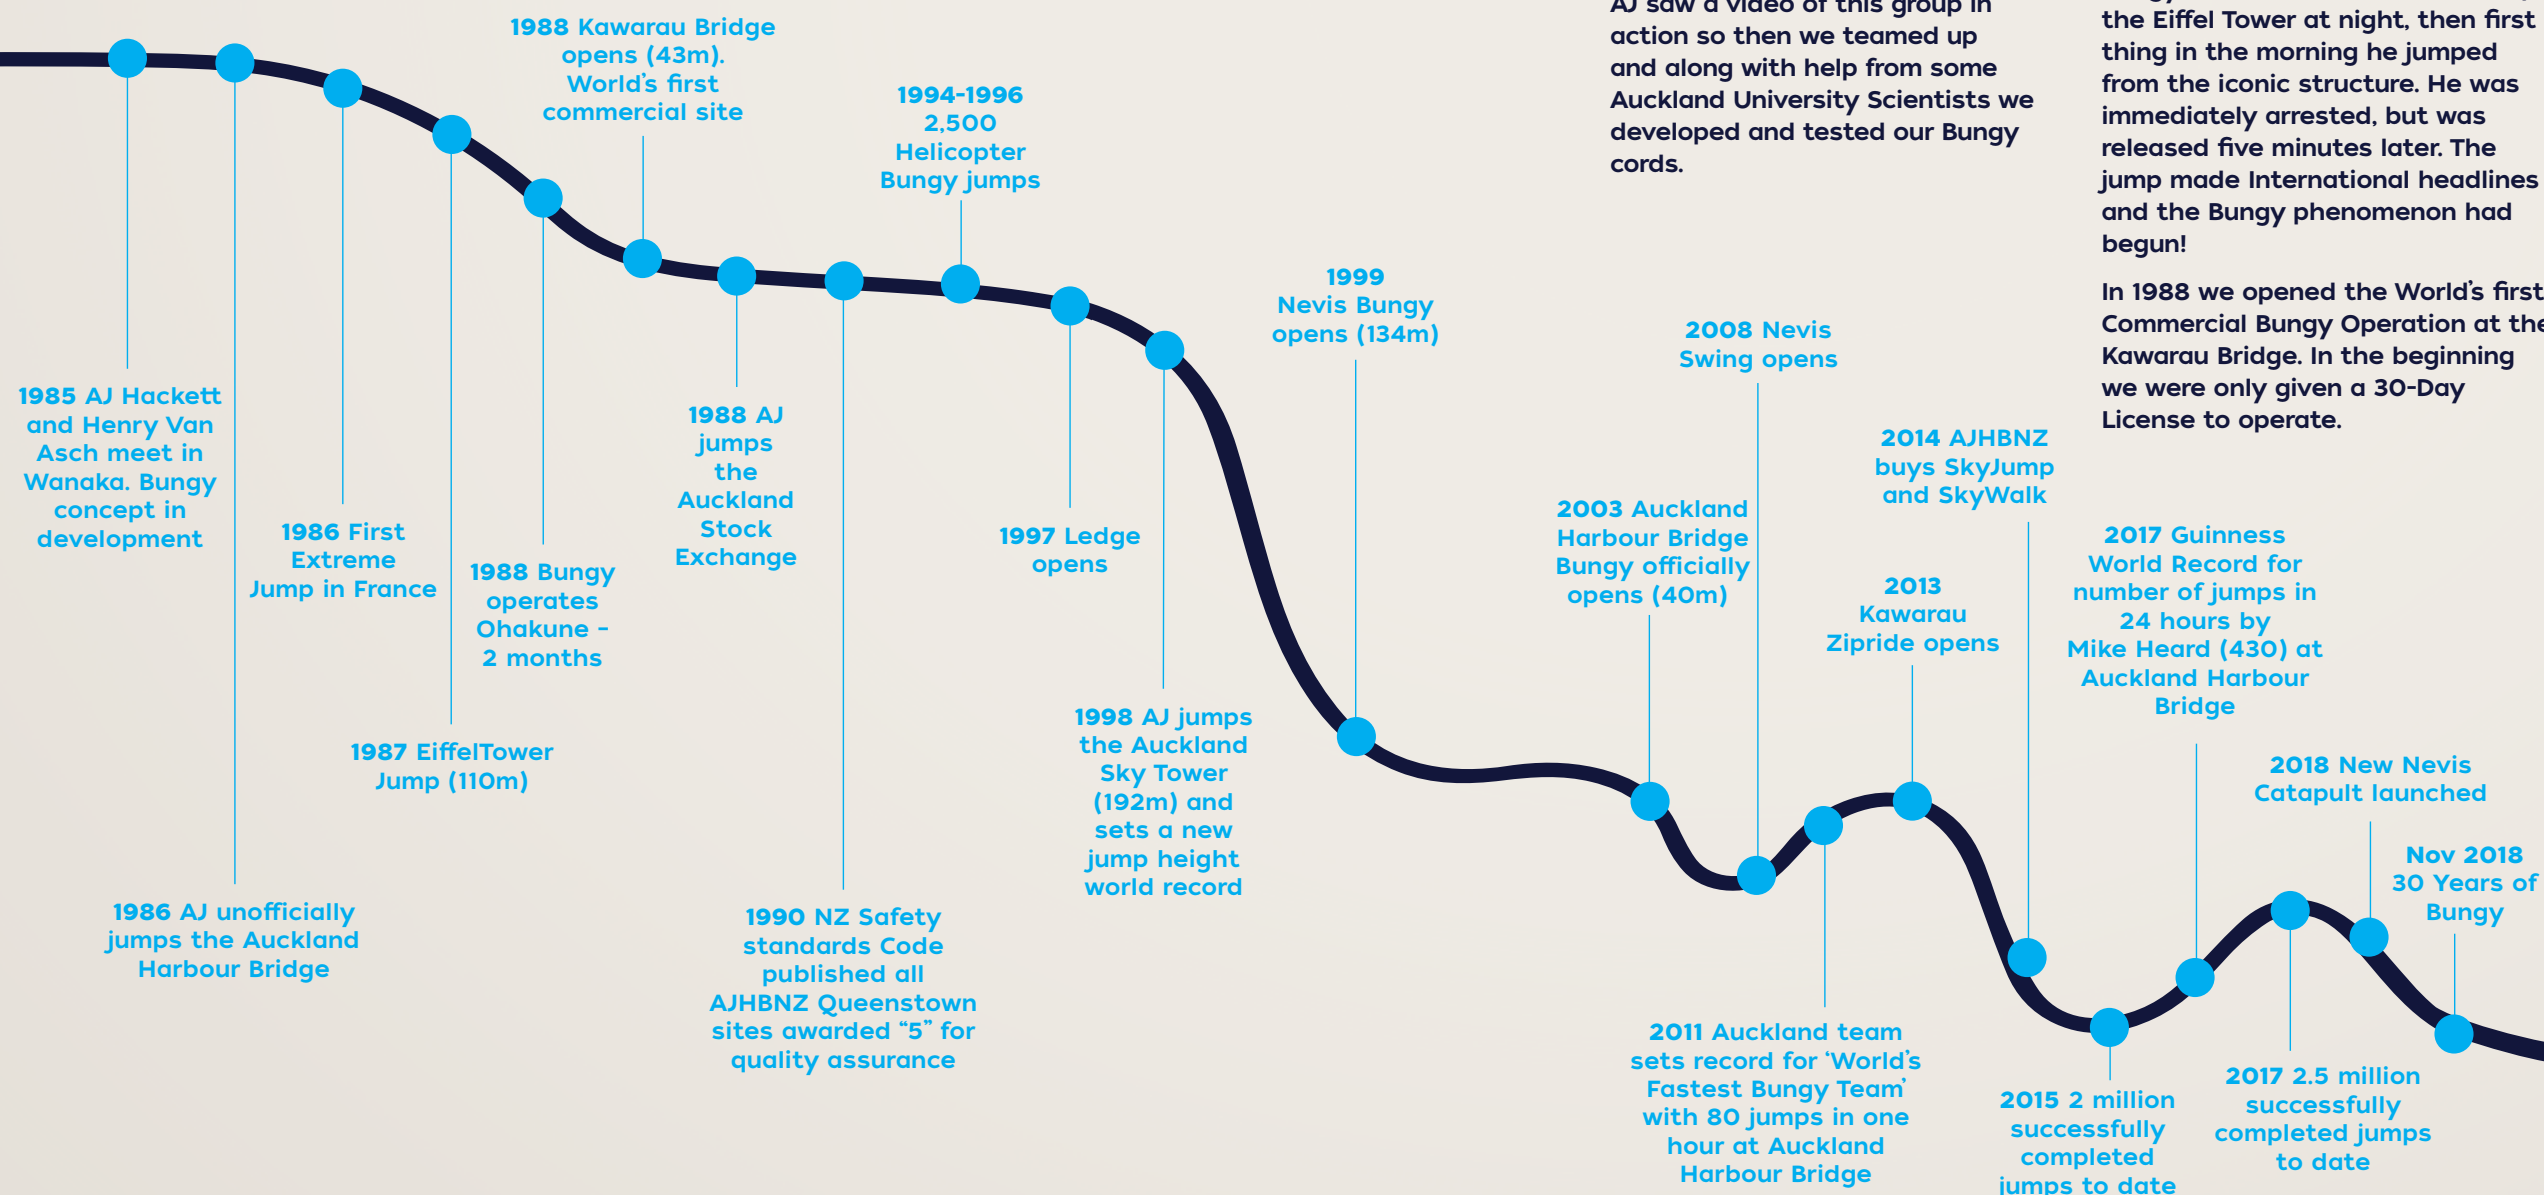

It's been 30 years on and we're still just as committed to our customers mustering up the courage to do something they'll never forget with strong safety record.

The allure of Bungy is as strong as ever, it draws people of every nationality and age, men and women alike. All you need to do is be up for the personal challenge. You can be a big tall guy or a petite woman it doesn't matter. Bungy is about everything from the neck up not the neck down, it is all in your own head. Once you go through that mental struggle and take the leap you are rewarded with an unforgettable and incredible feeling of satisfaction and empowerment that you will want to hang on to for a long time to come.

I encourage everyone to come and experience the sensation of Bungy for themselves. It's time to Live More & Fear Less!

# THE LEDGE

Perched high above Queenstown the Ledge is located at the top of the Skyline Gondola overlooking Queenstown from a height of 400metres (1312ft). The city, Lake Wakatipu and mountains in the distance all combine for a simply stunning view. Need a new Facebook profile pic? This is the place to get it! Skyline is within walking distance of downtown

Queenstown meaning the Ledge is an ideal inclusion for any customers who are tight on time as it has the shortest duration period. # NEVIS PLAYGROUND

Set into the rugged Otago landscape 45mins from downtown Queenstown, the Nevis site is located up a private road and is only accessible by our specialty 4x4 vehicles. You will be transported up a steep gravel road gaining just a peak at the dramatic drop along the way.

Despite being so close to Queenstown, you are up in the high-country meaning that you have a feeling of remoteness that only heightens your experience. There is no public access to this location, so everyone on site is there for one reason and one reason only - to go big or go home.

This creates an electrified atmosphere where the nerves and tension in the air are almost palpable.

If 'Bungying' is not your forte." You can still get up close and personal to those jumping by accompanying as a Nevis Spectator. A great option which gets you so close to the action you'll be able to smell the fear. Spectators can accompany friends, family or just come out to watch others. Gain restricted entry to the remote Nevis Playground, including full access to the Swing & Catapult

# WELCOME TO OUR WORLD

Our journey began back in 1988 and was fuelled by one crazy thought, a huge dose of adrenaline and one giant leap of faith. As a proud Kiwi company we now operate 13 activities across Queenstown, Auckland and Taupō where we inspire people to awesomeness by helping them do things they never thought they could.

**Auckland** is New Zealand's gateway and is not to be overlooked, explore this vibrant coastal city and start as you mean to continue with epic vistas, new experiences and thrills galore. We offer a range of adventure experiences, from soft to extreme adventure to suit all kinds of people. Choose from Bungy, Bridge Climb, SkyWalk & SkyJump all with the Bungy pioneers.

**Taupō** - the heart of Aotearoa's North Island - is home to New Zealand's largest lake and a dramatic landscape of snow-capped mountains, towering volcanoes and steaming geothermal valleys. Nestled off the cliff face high over the Waikato River is Taupō Bungy and Swing. The site is an awe-inspiring haven for thrill-seekers and spectators alike and only five minutes from central Taupō.

This pack is designed to provide all the necessary information regarding all 13 experiences with AJ Hackett Bungy New Zealand (flip over for Queenstown options). It contains operational guidelines, pricing & product information.

Safety is deeply embedded within the company and we fiercely protect our strong safety record. We provide the perfect backdrop and expertise to give our customers the opportunity to push themselves by mustering up the courage to do something that they will never ever forget. We encourage everyone to LIVE MORE & FEAR LESS!
